Press Release

332 Departments Registered on Punjab Job Portal

Lahore, November 14, 2017

Punjab Job Portal has registered 332 departments of the Punjab Government enabling 11,175 candidates to apply online for various categories of 143 available job postings on the portal by various provincial departments. The portal developed by the Punjab Information Technology Board (PITB) was launched in August this year. It was informed in a progress review meeting held here today under the Chairmanship of Dr. Umar Saif founding Vice Chancellor of Information Technology University (ITU) Punjab, Chairman PITB and Advisor to the CM Punjab.

On this occasion Dr. Umar Saif said that the success of PITB's job portal through innovation was helping in seamless screening in various hiring government departments and providing opportunities to the people through transparent process and providing 24/7 facility to the candidates to apply for the desired vacant position without visiting the various departments and involving any middle man, which would also eliminate the chances of malpractices and corruption.

The portal http://jobs.punjab.gov.pk is especially developed to act as a single window for applying to all Punjab provincial government jobs facilitates the candidates to assess their eligibility for the offered vacancies. Traffic to PITB's Job Portal website illustrates continued demand from job seekers across a range of departments and positions.

PITB's Job Portal search filters can conveniently be used to reach a job posting with your required years of work experience, educational background or target industry, since the portal captures these details during profile creation. Advanced searches incorporating complex search queries and keyword searches further help narrow down relevant jobs, which becomes crucial when databases become large.
