

Press Release

Rasta App To Fix Traffic Problems In Gujranwala

Lahore: August 12, 2020

CTO Gujranwala Mr. Muhammad Asif Siddique and the team of city traffic police department visited PITB to inaugurate Rasta App and Online Time Scheduling System for Driving License in Gujranwala. Director General IT Operations PITB Mr. Faisal Yousaf and his team comprising Director Mr. Syed Qasim Ifzal and members were present in the meeting to discuss the functioning of Rasta App and Online Licensing System. The app offers multiple features including traffic updates, e-ticketing, and online driving licenses facility for the applicants. The citizens will also be able to get information about “e-tests” or driving schools by using this application.

Punjab Information Technology Board’s (PITB) developed smartphone application titled “Rasta” in collaboration with City Traffic Police, has provided smart solutions to general public’s traffic related problems and queries over the years. It will now be available for the public of Gujranwala to help citizens and road users with real-time information related to traffic related issues.

In the end of the meeting certificates of appreciation were distributed among the Gujranwala police team for their cooperation in the successful implementation of the systems.
